

Class: VI
Subject: Biology
Topic: Food where does it come from
No. of Questions: 25

- Q1. Pulses are rich source of
- Proteins
 - Carbohydrates
 - Fats
 - Vitamins
- Q2. All organisms except green plants are called as
- Autotrophs
 - Heterotrophs
 - Herbivores
 - Carnivores
- Q3. Curd is formed by the action of
- Fungus
 - Algae
 - Bacteria
 - Protozoa
- Q4. Snake do not have
- Tongue
 - Teeth
 - Mouth
 - Tail
- Q5. Match the following Column
- | Column A | Column B |
|--------------------------|-------------|
| A. Carbohydrates | i. Ghee |
| B. Proteins | ii. Rice |
| C. Fat | iii. Fruits |
| D. Vitamins and minerals | iv. Maize |
| E. Roughage | v. Soybean |

- Q6. Select true/ false statement from the followings.
- A. Snake do not have teeth.
 - B. Carnivores have blunt teeth.
 - C. Man is an example of omnivores.
 - D. All green plants are producers.
 - E. Cuscuta is a parasitic plant.
- Q7. Name a plant that has two edible parts.
- Q8. What are main sources of food?
- Q9. Write the name of food following organisms eat:
- A. Cow
 - B. Snake
 - C. Lion
 - D. Honey bee.
- Q10. Arrange the following organisms as Carnivores, herbivores and omnivores.
- A. Cat
 - B. Cow
 - C. Horse
 - D. Man
 - E. Tiger
 - F. Dog.
- Q11. Plants prepare their food by the process of
- A. Transpiration
 - B. Photosynthesis
 - C. Respiration
 - D. Transportation
- Q12. Match the following
- | Column A | Column B |
|-----------|-----------------------------|
| A. Curd | i. protein |
| B. Pulses | ii. Highly nutritious food. |
| C. Honey | iii. hen |
| D. Meat | iv. milk |
| E. Egg | v. goat |
- Q13. What do you mean by food habit?

Q14. What is the importance of spices for us?

Q15. Why food is essential for us?

Q16. Name the main food item consumed in

- A. Punjab
- B. Gujarat
- C. Kerala
- D. West Bengal
- E. Odhisha

Q17. Fill in the blanks with suitable word.

- A. Snake does not have _____.
- B. Scavengers feed on other _____.
- C. South Indian use _____ oil as medium of cooking.
- D. Excess intake of food causes _____.
- E. Animals that provide milk are called _____ animals.

- Sol:
- A. Wheat, pulse and milk.
 - B. Dhokla, pulse, groundnut.
 - C. Rice, fish, vegetable.
 - D. Rice, fish.
 - E. Rice and fish.

Q18. Match the organisms in column A with product used as food by human in column B.

- | Column A | Column B |
|------------------|-----------|
| A. Goat | i. leaves |
| B. Mustard plant | ii. Meat |
| C. Hen | iii. Seed |
| D. Cow | iv. Egg |
| E. Spinach | v. milk |

Q19. Select true/false (T/F) statements from the following.

- A. Potato tubers contain carbohydrates.
- B. Soyabean is a rich source of vitamins.
- C. Milk is a complete food.
- D. Vegetables and fruits gives vitamins and minerals
- E. Glucose is the main source of energy in our body.

- Q20. Give one words for following:
- A. Animals that eat both plants and animals_____.
 - B. Animals that eat only meat _____.
 - C. Animals that eat only plants _____.
- Q21. Why do organisms require food? Give two reasons.
